EfVET in a nutshell

Creation: Founded in 1991, in the Netherlands, with the main purpose of building a network of VET practitioners and institutions to secure a voice across Europe in both policy-making and practice arenas.

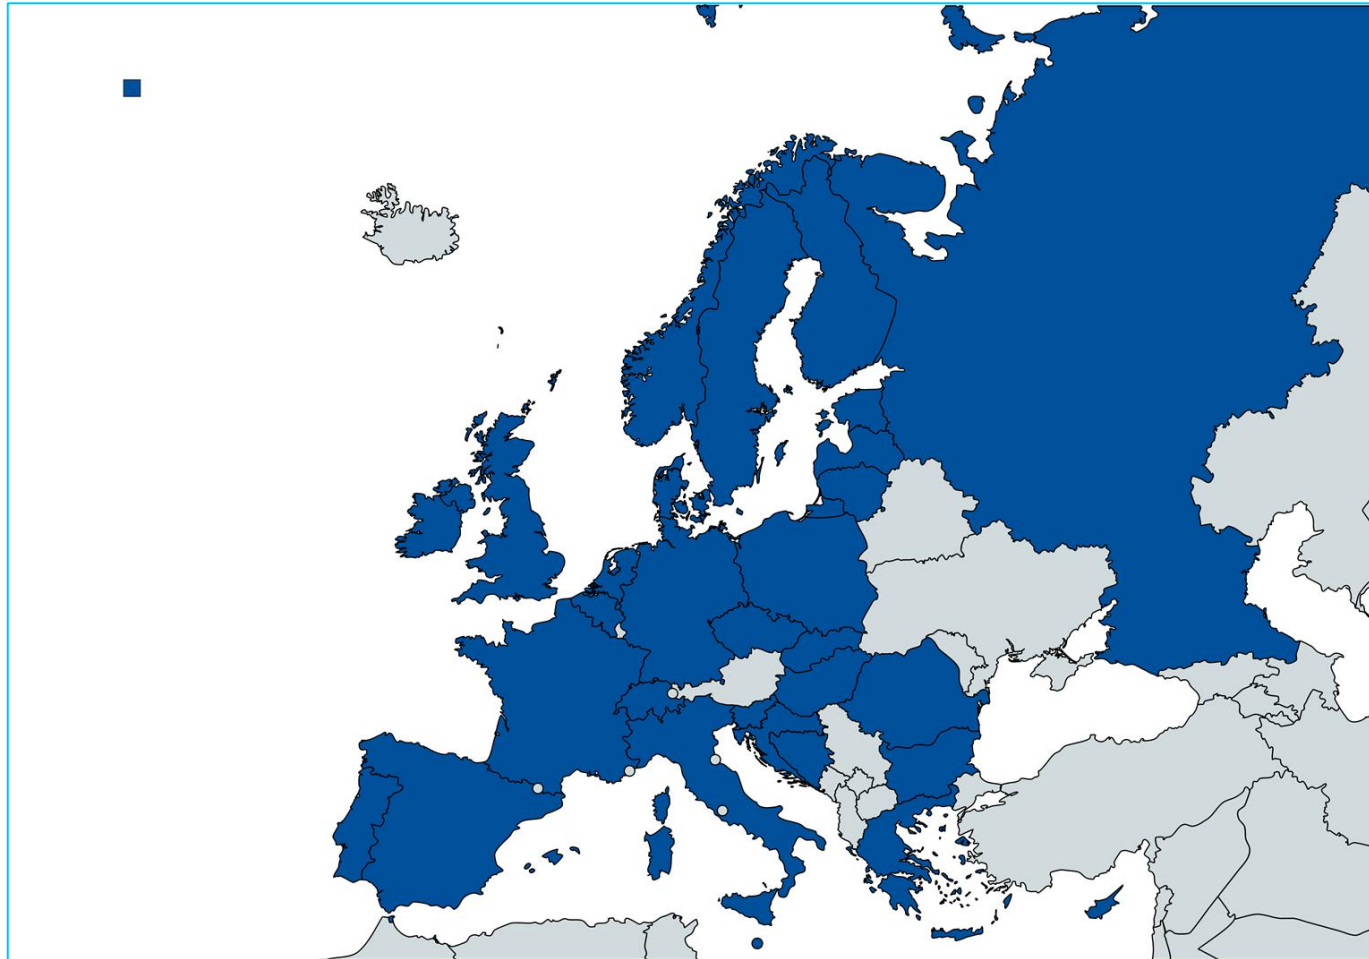

Mission: EfVET aims at enhancing VET provision across all its members through an active networking of all the key actors and to create the capacity to influence policy at European and National level.

Vision: EfVET aspires to become a leading contributor to the enhancement of VET in Europe.

EfVET Strategic Plan 2022-2026

“Continuity and Change”

1

Delivery of high-quality services to our members

To sustain an organisational structure that delivers quality services to its members based on advanced and updated knowledge and practice of VET and transparency, effectiveness and timeliness in its administrative operations.

2

Support to National Boards

To support EfVET National Boards across Europe and ensure that their activities are given financial support, wider visibility and successes shared among all EfVET members.

3

Use of effective technology and remote working

To ensure that the organization uses technology to enhance the effectiveness of its operations and consider remote working as part and parcel of the normal office routine.

4

Catalyst for innovation in VET

To manage and use data gathered from networking, projects and partnerships to bring change in VET and in particular through the dissemination of good practices and the support of practitioners' continuous improvement and that of their learning institutions [...]

5

Promoters of work-based learning

To contribute to and actively support developments in work-based learning in the context of industry-driven qualifications, Industry 4.0 and community-oriented curricula based on online learning or hybrid methods of learning.

6

Shareholders with industry & governments

To establish a special rapport with industry at European level and engage employers in a more structured dialogue with VET providers to promote digital-based learning environments.

7

Wider EfVET Membership

To enhance EfVET's investment in more resources and attract new members in EfVET while leading a process that facilitates the setting up of a Confederation of European VET Providers and one governing role in European institutions.

8

Advocacy for VET reform in Europe

To act as leaders in the advocacy for VET design that is practical, contextualized and with high probability of positive impact on the learning processes of students and their employability and the capacity building of teachers and practitioners [...]
